#### Item 2.02. Results of Operations and Financial Condition

On February 27, 2024, Diamond Offshore Drilling, Inc. (the "Company") issued a press release announcing its financial results for the fiscal quarter ended December 31, 2023. A copy of the press release is furnished herewith as Exhibit 99.1.

#### Item 7.01. Regulation FD Disclosure

A conference call to discuss the Company's fourth quarter 2023 earnings results, first quarter 2024 and full year 2024 guidance and an update on recovery operations for certain equipment from the *Ocean GreatWhite* drilling rig has been scheduled for 8:00 a.m. Central Time on February 28, 2024. The information for accessing the conference call is included in the press release.

The Company hereby incorporates by reference into this Item 7.01 the summary report of the status, as of February 27, 2024, of the Company's offshore drilling rigs attached as Exhibit 99.2.

The information contained in Items 2.02 and 7.01 and Exhibits 99.1 and 99.2 to this report shall not be deemed "filed" for purposes of Section 18 of the Securities Exchange Act of 1934, as amended (the "Exchange Act"), and shall not be incorporated by reference into any previous or future registration statement filed under the Securities Act of 1933, as amended (the "Securities Act"), unless specifically identified therein as being incorporated by reference.

Statements in this report and statements in the press release furnished as Exhibit 99.1 to this report or the rig status report furnished as Exhibit 99.2 to this report, and statements made during the conference call described in this report, in each case that are not historical facts are "forward-looking statements" within the meaning of Section 27A of the Securities Act and Section 21E of the Exchange Act. Such statements made during upgrades and capital expenditures, equipment recovery efforts, insurance claims and recoveries, surveys, retirements, availability, utilization, scrapping, impairments, backlog and revenue expected to result from backlog, future revenue, operating costs and performance; future liquidity and financial condition, market conditions, commodity prices and strategic opportunities; contract noncompliance by customers and other third parties; outcomes of customer discussions; future impact of regulations; and other statements that are not of historical fact. Forward-looking statements are inherently uncertain and subject to a variety of assumptions, risks and uncertainties that could cause actual results to differ materially from those currently anticipated or expected by management of the Company. A discussion of certain of the risk factors and other considerations that could materially impact these matters as well as the Company's overall business and financial performance canefully when considering these forward-looking statements. Copies of these reports are available through the Company's website at www.diamondoffshore.com. These risk factors include, among others, risks associated with worldwide demand for drilling services, level of activity in the oil and gas industry, renewing or replacing expired or terminated contracts, contract cancellations, and terminations, maintenance and realization of backlog, competition and industry fleet capacity, impairments and retirements, operating and equipment

recovery risks, litigation and disputes, permits and approvals for drilling operations, the novel coronavirus (COVID-19) pandemic and related disruptions to the global economy, supply chain and normal business operations across sectors and countries, changes in tax laws and rates, regulatory initiatives and compliance with governmental regulations, casualty losses, and various other factors, many of which are beyond the Company's control. Given these risk factors and other considerations, investors and analysts should not place undue reliance on forward-looking statements. Each forward-looking statement speaks only as of the date of such statement, and the Company expressly disclaims any obligation or undertaking to release publicly any updates or revisions to any forward-looking statement to reflect any change in the Company's expectations with regard thereto or any change in events, conditions or circumstances on which any forward-looking statement is based.

Bernie Wolford, Jr., President and Chief Executive Officer, stated, "2023 was a transformational year for Diamond Offshore. We marked our one-year anniversary of re-listing on the New York Stock Exchange, made measurable improvements in our capital structure, secured \$485 million dollars in new contract awards throughout the year, safely completed Special Periodical Surveys on five rigs, and completed eight contract start-ups, including four contract commencements in the fourth quarter, one in each of the regions in which we operate. In the first quarter of 2024, as previously announced, we secured a two-year contract extension for the *Ocean BlackLion* in the Gulf of Mexico at a leading edge dayrate and secured additional P&A work for the *Ocean Patriot* to fill a portion of the gap prior to commencement of a long-term P&A campaign in 2025.

The recent \$362 million in contract awards are in addition to our reported backlog of \$1.4 billion as of January 1, which will result in notable average dayrate improvement as we transition to new contracts."

Revenue for the fourth quarter totaled \$298 million compared to \$245 million in the third quarter of 2023. The increase in revenue quarter-over-quarter was primarily driven by the Ocean BlackHawk's contract commencement in the Gulf of Mexico in the fourth quarter after

completion of an MPD installation, Special Periodical Survey and contract preparation work and new contract commencements for the *Ocean Patriot* and *Ocean Apex*, partially offset by lower revenue for the *Ocean Courage* due to contract preparation activities related to its new multi-year contract in Brazil.

Contract drilling expense for the fourth quarter was \$189 million, or a \$7 million increase from the prior quarter, largely due to higher charter rental costs associated with the managed rigs and the annual bonus expense related to the drillships' BOP service agreement. The increase in expense was partially offset by the deferral of certain costs associated with contract preparation activities for the *Ocean Courage*, as the Company continued to prepare the rig for a new contract that commenced during the quarter, and the absence of costs associated with the *Ocean Apex* shipyard project in the third quarter.

General and administrative expenses were \$19 million in the fourth quarter, or a \$3 million increase compared to the prior quarter, primarily due to an adjustment in accrued expenses associated with the Company's incentive compensation plan.

Tax expense for the fourth quarter was \$174 million as compared to a \$125 million expense in the prior quarter. The non-cash tax expense in the fourth quarter reflected the expected continued normalization of the Company's tax expense and the reversal of the tax benefit recorded earlier in 2023.

#### Operational Highlights

Operationally, the Company's rigs continued to perform well, achieving revenue efficiency of approximately 95% across the fleet for the second successive quarter. This is a notable achievement given the unusually high amount of shipyard activity for the Company's fleet and the start-up of contracts during the quarter. Of note, both the *Ocean BlackHawk* and *Ocean Courage* completed contract preparation activities in the fourth quarter and are now operating under new contracts in the Gulf of Mexico and offshore Brazil, respectively. Additionally, in the fourth quarter, the Company earned an additional bonus for efficient, injury-free operations in Senegal.

#### Additional Updates

The Company will discuss its earnings results and provide first quarter and full year 2024 guidance and an update on recovery operations for certain equipment from the *Ocean GreatWhite* during the earnings conference call.

#### CONFERENCE CALL

The earnings conference call has been scheduled for 8:00 a.m. CDT on Wednesday, February 28, 2024. A live webcast of the call will be available online on the Company's website <u>www.diamondoffshore.com</u>. Participants who want to join the call via telephone or want to participate in the question-and-answer session may register <u>here</u> to receive the dial-in numbers and unique PIN to access the call. An online replay will also be available on <u>www.diamondoffshore.com</u> following the call.

Average dayrate is defined as total contract drilling revenue for all of the rigs in our fleet (including managed rigs) per revenue-earning day. A revenue-earning day is defined as a 24-hour period during which a rig earns a dayrate after commencement of operations and excludes mobilization, demobilization and contract preparation days. Utilization is calculated as the ratio of total revenue-earning days divided by the total calendar days in the period for all rigs in our fleet (including managed and cold-stacked rigs). (1)

(2)

(3) Revenue efficiency is calculated as actual contract drilling revenue earned divided by potential revenue, assuming a full dayrate is earned.

#### Non-GAAP Financial Measures (Unaudited)

To supplement the Company's unaudited condensed consolidated financial statements presented on a basis in conformity with generally accepted accounting principles in the United States (GAAP), this press release provides investors with adjusted earnings before interest, taxes, depreciation and amortization and loss on extinguishment of debt (or Adjusted EBITDA), which is a non-GAAP financial measure. Management believes that this measure provides meaningful information about the Company's performance by excluding certain items that may not be indicative of the Company's ongoing operating results. This allows investors and others to better compare the Company's financial results across previous and subsequent accounting periods and to those of peer companies and to better understand the long-term performance of the Company. Non-GAAP financial measures should be considered a supplement to, and not as a substitute for, or superior to, contract drilling revenue, contract drilling expense, operating income or loss, cash flows from operations or other measures of financial performance prepared in accordance with GAAP.

#### **New Contracts and Extensions**

Ocean BlackLion Secured two-year extension with a subsidiary of bp in the U.S. Gulf of Mexico ("USGOM") commencing in early September 2024 in direct continuation of the rig's current contract. Ocean Patriot Secured two-well P&A contract with Serica Energy (UK) Limited ("Serica") in the UK with an estimated duration of sixty days, expected to commence in early March 2024. **Other Activity** Ocean Courage Commenced four-year contract with Petrobras in Brazil in mid-December 2023. The firm term is expected to run until December 2027. Concluded P&A campaign with an operator in the UK in early February and mobilized to Invergordon to prepare for its next contract with Serica, which is expected to commence in Ocean Patriot early March. The rig reported an equipment incident on February 1, 2024 while located west of the Shetland Islands. The rig's lower marine riser package, which we refer to as the LMRP, had been disconnected from the rig's BOP on the well while waiting on harsh weather. Subsequently, the LMRP and the deployed riser string unintentionally separated from the rig, and Ocean GreatWhite the LMRP and riser dropped to the seabed. We are currently estimating 90-100 days of out of service time related to this incident and anticipate resuming the campaign by the end of April or early May. The rig is now expected to remain under contract until at least late November or early December 2024. Vela The latest well schedule provided by the operator now estimates the end of the campaign to be mid-August. Auriga The rig is expected to be returned to the rig owner following the completion of its drilling contract, which is expected to occur in early March. Ocean Apex The latest well schedules provided by operators now estimate the final campaign in the sequence of work will run until late February 2025.

### Disclaimer

Statements contained in this report that are not historical facts are "forward-looking statements" within the meaning of the federal securities laws. Forward-looking statements are inherently uncertain and subject to a variety of assumptions, risks and uncertainties that could cause actual results to differ materially from those anticipated or expected by management of the Company.

A discussion of the important risk factors and other considerations that could materially impact these matters as well as the Company's overall business and financial performance can be found in the Company's reports filed with the Securities and Exchange Commission, and readers of this report are urged to review those reports carefully when considering these forward-looking statements. Copies of these reports are available through the Company's website at <u>www.diamondoffshore.com</u>. These risk factors include, among others, risks associated with worldwide demand for drilling services, level of activity in the oil and gas industry, renewing or replacing expired or terminated contracts, contract cancellations and terminations, maintenance and realization of backlog, competition and industry fleet capacity, impairments and retirements, operating risks, changes in tax laws and rates, regulatory initiatives and compliance with governmental regulations, construction of new builds, casualty losses, and various other factors, many of which are beyond the Company's control.

Given these risk factors, investors and analysts should not place undue reliance on forward-looking statements. Each forward-looking statement speaks only as of the date of this report. The Company expressly disclaims any obligation or undertaking to release publicly any updates or revisions to any forward-looking statement to reflect any change in the Company's expectations with regard thereto or any change in events, conditions or circumstances on which any forward-looking statement is based.
